Food and Agri Processors and Exporters

Meet buyer codes and responsible-sourcing requirements across your supplier base, with evidence that holds up.

Advisory · Implementation · Digital

Who This Is For

- Food and ingredient processors
- Agri commodity exporters
- Spice, tea and nut processors
- Contract manufacturers for brands

Where You Sit in the Supply Chain

PRODUCER → AGGREGATOR → **PROCESSOR** (You) → **MANUFACTURER** (You) → **EXPORTER** (You) → BUYER

Buyer requirements reach you first, and you pass them on to your suppliers.

How S360 Works

Know the source › Build the evidence › Understand the risk › Take action › Be able to show it

What We Often Hear

- Supplier questionnaires arrive from each buyer in a different format.
- Labour and social expectations now reach suppliers several tiers down.
- Evidence is spread across procurement, quality and HR teams.
- Requirement changes are hard to roll out to every supplier.

What S360 Does

The same integrated capability, scoped around what your customers, markets and requirements ask of you.

Advisory

Understand

- Buyer requirement mapping
- Supplier risk segmentation
- Labour and social gap review

Implementation

Put it in place

- Supplier onboarding and assessments
- Policies, procedures and management review
- Corrective action closure

Digital

Keep it running

- Supplier records and approval status
- Buyer requirements tracked across suppliers
- Evidence linked to each requirement

Requirements This Covers

- Buyer codes of conduct
- Responsible-sourcing requirements
- Social and labour compliance
- EUDR for in-scope commodities

S360 is the system, not the requirement. Standards, regulations and buyer requirements are inputs; we build one way of working that answers them together. Contributes to SDG 2, Zero Hunger.

S360 is not a certification body. We support organisations in understanding applicable standards, implementing management systems, preparing evidence, conducting internal assessments and preparing for independent certification audits. Where certification is required, certification decisions are made independently by the relevant certification body.

Questions We Are Asked

Does S360 certify my organisation?

No. S360 is not a certification body. We help you prepare; certification decisions rest with independent certification bodies.

Can we use the digital platform on its own?

Yes. Modules may be used independently, inside an implementation engagement, or connected to the systems you already run.

Do you work with what we already have?

Yes. We start from your current procedures, records and systems, and keep what already works.

What Changes When the Record Is Digital

TODAY	WITH S360
Requirements in buyer PDFs	Each requirement mapped to the suppliers it applies to
Evidence spread across teams	One evidence library linked to each requirement
Supplier status unknown until asked	Supplier status visible at a glance

Supplier & Vendor Management

Registration, KYC, documentation, qualification and approval — the journey from supplier to registered vendor.

Due Diligence Platform

Assessments, evidence, risk scoring, approvals, monitoring and reassessment.

Document Management

Structured evidence and document lifecycle, retrievable by supplier, delivery or date.

Services are scoped around each organisation's requirements. Digital modules may be offered independently, as part of implementation engagements, or as integrated solutions.

How We Work With You

01
Scope
Understand your supply base, customers and the requirements you face.

02
Assess
Review current practice, records and risk against those requirements.

03
Design
Agree one way of working: procedures, records and responsibilities.

04
Implement
Put it in place with your teams and suppliers, with training on site.

05
Digitise
Move records, evidence and workflows into the platform where it helps.

06
Monitor
Keep status current, close actions and prepare for each review.

Also in Agriculture & Food

- Oil Palm Growers, Groups and Mills
- Coffee, Rubber and Plantation Commodities
- Farmer Producer Organisations and Aggregators

Buyer requirements met once, across every supplier they touch.

Tell us about your supply base and the requirements you are facing. We will scope the work around them.
