Suppliers Serving Several Buyers

Build one evidence base and share it with every buyer, instead of answering the same questions again.

Advisory · Implementation · Digital

Who This Is For

- Exporters with several brand customers
- Tier-two suppliers to certified manufacturers
- Mills and processors with export buyers
- Small and medium enterprises entering export markets

Where You Sit in the Supply Chain

PRODUCER — AGGREGATOR (You) — PROCESSOR (You) — MANUFACTURER (You) — EXPORTER (You) — BUYER

Each buyer asks in its own format. The evidence underneath is largely the same.

How S360 Works

Know the source › Build the evidence › Understand the risk › Take action › Be able to show it

What We Often Hear

- Each buyer sends its own questionnaire, audit and document list.
- The same evidence is gathered again and again.
- It is often unclear whether a requirement comes from a scheme, a law or a buyer.
- Small teams spend more time answering than improving.

What S360 Does

The same integrated capability, scoped around what your customers, markets and requirements ask of you.

Advisory

Understand

- Requirement mapping: scheme, law and buyer
- Gap review across all buyers at once
- Priorities that serve the most buyers

Implementation

Put it in place

- Policies and procedures built once
- Evidence collection and internal audits
- Buyer audit readiness

Digital

Keep it running

- One supplier profile with verified documents
- Requirement-to-evidence mapping
- Controlled sharing with each buyer

Requirements This Covers

- Buyer codes and questionnaires
- Scheme requirements that apply to you
- EUDR where products are in scope
- Social and labour expectations

S360 is the system, not the requirement. Standards, regulations and buyer requirements are inputs; we build one way of working that answers them together. Contributes to SDG 12, Responsible Consumption and Production.

S360 is not a certification body. We support organisations in understanding applicable standards, implementing management systems, preparing evidence, conducting internal assessments and preparing for independent certification audits. Where certification is required, certification decisions are made independently by the relevant certification body.

Questions We Are Asked

Does S360 certify my organisation?

No. S360 is not a certification body. We help you prepare; certification decisions rest with independent certification bodies.

Can we use the digital platform on its own?

Yes. Modules may be used independently, inside an implementation engagement, or connected to the systems you already run.

Do you work with what we already have?

Yes. We start from your current procedures, records and systems, and keep what already works.

What Changes When the Record Is Digital

TODAY		WITH S360
A new folder for every buyer	→	One evidence base, shared by permission
Questionnaires filled in from memory	→	Answers drawn from documents on record
Unclear what each buyer needs	→	Each buyer's requirements mapped to your evidence

Document Management

Structured evidence and document lifecycle, retrievable by supplier, delivery or date.

Certificate & Standards Management

Track third-party certificates, standards, scopes, validity, expiry, suppliers, sites and products.

Supplier & Vendor Management

Registration, KYC, documentation, qualification and approval — the journey from supplier to registered vendor.

Services are scoped around each organisation's requirements. Digital modules may be offered independently, as part of implementation engagements, or as integrated solutions.

How We Work With You

01
Scope
Understand your supply base, customers and the requirements you face.

02
Assess
Review current practice, records and risk against those requirements.

03
Design
Agree one way of working: procedures, records and responsibilities.

04
Implement
Put it in place with your teams and suppliers, with training on site.

05
Digitise
Move records, evidence and workflows into the platform where it helps.

06
Monitor
Keep status current, close actions and prepare for each review.

Also in Across Sectors

- **Buyers, Brands and Importers Sourcing from India**
- **The S360 Platform on Its Own**

Less time answering buyers, more time improving the business.

Tell us about your supply base and the requirements you are facing. We will scope the work around them.
