AGRICULTURE & FOOD · BROCHURE

Oil Palm Growers, Groups and Mills

Build smallholder groups that can show good practice on every farm, and fresh fruit bunch supply mills can trace.

Advisory · Implementation · Digital

Who This Is For

- Oil palm smallholder groups
- Companies running grower programmes
- Palm oil mills
- Field extension teams

Where You Sit in the Supply Chain

PRODUCER	AGGREGATOR	PROCESSOR	MANUFACTURER	EXPORTER	BUYER
You	You	You			

Mills rely on fresh fruit bunches from large numbers of smallholders.

How S360 Works

Know the source › Build the evidence › Understand the risk › Take action › Be able to show it

What We Often Hear

- Many smallholders, each needing training and simple records.
- Farm locations and land history are needed for every plot.
- Fresh fruit bunch receipts at the mill are often not linked back to farms.
- Training material in English may not reach farmers who read regional languages.

What S360 Does

The same integrated capability, scoped around what your customers, markets and requirements ask of you.

Advisory

Understand

- Group structure and internal control approach
- Land and environmental risk review
- Farmer engagement plan

Implementation

Put it in place

- Farmer onboarding and training
- Farmer booklets in regional languages
- Internal inspections and certification readiness

Digital

Keep it running

- Farmer and plot register with geolocation
- Training attendance records
- Fresh fruit bunch receipts linked to farms

Requirements This Covers

RSPO, including the independent smallholder standard

EUDR due diligence

Buyer sourcing policies

S360 is the system, not the requirement. Standards, regulations and buyer requirements are inputs; we build one way of working that answers them together. Contributes to SDG 2, Zero Hunger.

S360 is not a certification body. We support organisations in understanding applicable standards, implementing management systems, preparing evidence, conducting internal assessments and preparing for independent certification audits. Where certification is required, certification decisions are made independently by the relevant certification body.

Questions We Are Asked

Does S360 certify my organisation?

No. S360 is not a certification body. We help you prepare; certification decisions rest with independent certification bodies.

Can we use the digital platform on its own?

Yes. Modules may be used independently, inside an implementation engagement, or connected to the systems you already run.

Do you work with what we already have?

Yes. We start from your current procedures, records and systems, and keep what already works.

What Changes When the Record Is Digital

TODAY	WITH S360
Farmer lists held by field staff	One register of farmers, plots and training
Training shown by sign-in sheets	Attendance captured per farmer, per session
Mill receipts with no farm link	Each receipt linked to the farm that supplied it

Traceability

Source-to-market mapping, with volumes that reconcile.

Document Management

Structured evidence and document lifecycle, retrievable by supplier, delivery or date.

Workflow

Configurable approval processes and corrective action to verified closure.

Services are scoped around each organisation's requirements. Digital modules may be offered independently, as part of implementation engagements, or as integrated solutions.

How We Work With You

01
Scope
Understand your supply base, customers and the requirements you face.

02
Assess
Review current practice, records and risk against those requirements.

03
Design
Agree one way of working: procedures, records and responsibilities.

04
Implement
Put it in place with your teams and suppliers, with training on site.

05
Digitise
Move records, evidence and workflows into the platform where it helps.

06
Monitor
Keep status current, close actions and prepare for each review.

Also in Agriculture & Food

- Coffee, Rubber and Plantation Commodities
- Farmer Producer Organisations and Aggregators
- Food and Agri Processors and Exporters

Smallholder supply that is organised, trained and traceable.

Tell us about your supply base and the requirements you are facing. We will scope the work around them.
