S360.earth

Coffee, Rubber and Plantation Commodities

Collect plot locations and legality evidence once, and reuse them for every buyer who needs them.

Advisory · Implementation · Digital

Who This Is For

- Coffee estates and curing works
- Rubber growers, dealers and processors
- Cocoa and spice growers
- Exporters selling to EU buyers

Where You Sit in the Supply Chain

PRODUCER	AGGREGATOR	PROCESSOR	MANUFACTURER	EXPORTER	BUYER
You	You	You		You	

EU buyers need to see the plot each lot came from, even through dealers and curers.

How S360 Works

1. **Know the source**
2. **Build the evidence**
3. **Understand the risk**
4. **Take action**
5. **Be able to show it**

What We Often Hear

- Geolocation is needed for every plot, including small holdings.
- Land and legality documents come in regional languages and different formats.
- Dealers and curers mix lots from many growers.
- EU buyers set their own formats and timelines for information.

What S360 Does

The same integrated capability, scoped around what your customers, markets and requirements ask of you.

Advisory

Understand

- Supply-chain mapping and risk review
- Which information you hold and which you pass on
- Buyer requirement review

Implementation

Put it in place

- Plot data collection drives
- Legality document checks
- Lot segregation and linking procedures

Digital

Keep it running

- Plot capture on mobile, with checks
- Legality documents stored by plot
- Lot linking and buyer information packs

Requirements This Covers

EUDR due diligence | Buyer sustainability programmes | Commodity board and export requirements

S360 is the system, not the requirement. Standards, regulations and buyer requirements are inputs; we build one way of working that answers them together. Contributes to SDG 2, Zero Hunger.

S360 is not a certification body. We support organisations in understanding applicable standards, implementing management systems, preparing evidence, conducting internal assessments and preparing for independent certification audits. Where certification is required, certification decisions are made independently by the relevant certification body.

Questions We Are Asked

Does S360 certify my organisation?

No. S360 is not a certification body. We help you prepare; certification decisions rest with independent certification bodies.

Can we use the digital platform on its own?

Yes. Modules may be used independently, inside an implementation engagement, or connected to the systems you already run.

Do you work with what we already have?

Yes. We start from your current procedures, records and systems, and keep what already works.

What Changes When the Record Is Digital

TODAY	WITH S360
Plot data collected again for each buyer	Plots captured once, reused for every buyer
Documents in boxes at the estate office	Documents stored against each plot and grower
Lot origin explained in an email	Lot origin shown on a map, with records attached

Due Diligence Platform

Assessments, evidence, risk scoring, approvals, monitoring and reassessment.

Traceability

Source-to-market mapping, with volumes that reconcile.

Document Management

Structured evidence and document lifecycle, retrievable by supplier, delivery or date.

Services are scoped around each organisation's requirements. Digital modules may be offered independently, as part of implementation engagements, or as integrated solutions.

How We Work With You

01
Scope
Understand your supply base, customers and the requirements you face.

02
Assess
Review current practice, records and risk against those requirements.

03
Design
Agree one way of working: procedures, records and responsibilities.

04
Implement
Put it in place with your teams and suppliers, with training on site.

05
Digitise
Move records, evidence and workflows into the platform where it helps.

06
Monitor
Keep status current, close actions and prepare for each review.

Also in Agriculture & Food

- Oil Palm Growers, Groups and Mills
- Farmer Producer Organisations and Aggregators
- Food and Agri Processors and Exporters

Commodities that reach EU buyers with their origin evidence ready.

Tell us about your supply base and the requirements you are facing. We will scope the work around them.
