Pulp, Paper and Board Mills

Map and evidence a multi-tier wood supply, from farmer to mill gate, and answer downstream buyers with confidence.

Advisory · Implementation · Digital

Who This Is For

- Integrated pulp and paper mills
- Board and packaging paper mills
- Wood procurement teams
- Mills supplying export customers

Where You Sit in the Supply Chain

PRODUCER → AGGREGATOR (You) → PROCESSOR (You) → MANUFACTURER (You) → EXPORTER → BUYER

Wood reaches you through traders and agents across several states. Your buyers need to see past them.

How S360 Works

Know the source › Build the evidence › Understand the risk › Take action › Be able to show it

What We Often Hear

- Wood arrives through traders, agents and aggregators, so farm origin is hard to see.
- Lots split and merge, which makes batch-to-source linking difficult.
- Export and downstream buyers ask for due diligence information you may not hold yet.
- Supplier data arrives in a different format from each tier.

What S360 Does

The same integrated capability, scoped around what your customers, markets and requirements ask of you.

Advisory

Understand

- Tier-by-tier supply-chain mapping
- Risk review by region and supplier type
- Information you must hold versus information you pass on

Implementation

Put it in place

- Supplier data collection by tier
- Batch-to-lot mapping procedures
- Due diligence system documents and internal audits

Digital

Keep it running

- Tiered supplier register from trader to farmer
- Plot geolocation capture
- Batch-to-lot linking and buyer information packs

Requirements This Covers

FSC chain of custody and Controlled Wood

PEFC chain of custody and due diligence system

EUDR due diligence

Buyer and brand sourcing policies

S360 is the system, not the requirement. Standards, regulations and buyer requirements are inputs; we build one way of working that answers them together. Contributes to SDG 15, Life on Land.

S360 is not a certification body. We support organisations in understanding applicable standards, implementing management systems, preparing evidence, conducting internal assessments and preparing for independent certification audits. Where certification is required, certification decisions are made independently by the relevant certification body.

Questions We Are Asked

Does S360 certify my organisation?

No. S360 is not a certification body. We help you prepare; certification decisions rest with independent certification bodies.

Can we use the digital platform on its own?

Yes. Modules may be used independently, inside an implementation engagement, or connected to the systems you already run.

Do you work with what we already have?

Yes. We start from your current procedures, records and systems, and keep what already works.

What Changes When the Record Is Digital

TODAY	WITH S360
Supplier data in separate workbooks per tier	One tiered register linking trader, agent and farmer
Batch origin reconstructed when a buyer asks	Each batch linked to its contributing lots and plots
Buyer requests answered from scratch	Information packs built from records you already hold

Due Diligence Platform

Assessments, evidence, risk scoring, approvals, monitoring and reassessment.

Traceability

Source-to-market mapping, with volumes that reconcile.

Supplier & Vendor Management

Registration, KYC, documentation, qualification and approval — the journey from supplier to registered vendor.

Services are scoped around each organisation's requirements. Digital modules may be offered independently, as part of implementation engagements, or as integrated solutions.

How We Work With You

01
Scope
Understand your supply base, customers and the requirements you face.

02
Assess
Review current practice, records and risk against those requirements.

03
Design
Agree one way of working: procedures, records and responsibilities.

04
Implement
Put it in place with your teams and suppliers, with training on site.

05
Digitise
Move records, evidence and workflows into the platform where it helps.

06
Monitor
Keep status current, close actions and prepare for each review.
