S360.earth

FORESTRY & WOOD PRODUCTS · BROCHURE

Sawmills, Timber Depots and Traders

Keep source-lot identity from auction or farm gate through to dispatch, so certified customers can keep buying from you.

Advisory · Implementation · Digital

Who This Is For

- Sawmills
- Timber depots and yards
- Log and sawn-timber traders
- Suppliers to certified panel and furniture makers

Where You Sit in the Supply Chain

PRODUCER — AGGREGATOR (You) — PROCESSOR (You) — MANUFACTURER — EXPORTER — BUYER

You link the forest or farm to the manufacturer. Lot identity lost here is lost for everyone after you.

How S360 Works

Know the source › Build the evidence › Understand the risk › Take action › Be able to show it

What We Often Hear

- Source-lot identity is often lost once logs are received and mixed in the yard.
- Transit passes, auction lots, invoices and weighbridge slips sit in different files.
- Each customer sends its own questionnaire and asks for the same documents again.
- Batch-wise production and material balance records are often missing or rebuilt late.

What S360 Does

The same integrated capability, scoped around what your customers, markets and requirements ask of you.

Advisory

Understand

- Mapping of each supply route you use
- Gap assessment against what your customers require
- Clear separation of scheme requirements from customer requests

Implementation

Put it in place

- Lot numbering and batch registers
- Document control from receipt to dispatch
- Readiness for customer and certification body supplier evaluations

Digital

Keep it running

- Receipt-to-dispatch batch register
- Documents linked to each lot
- One supplier profile you can share with several customers

Requirements This Covers

FSC Controlled Wood, as a supplier

FSC chain of custody

EUDR due diligence information

Customer supplier assessments

S360 is the system, not the requirement. Standards, regulations and buyer requirements are inputs; we build one way of working that answers them together. Contributes to SDG 15, Life on Land.

S360 is not a certification body. We support organisations in understanding applicable standards, implementing management systems, preparing evidence, conducting internal assessments and preparing for independent certification audits. Where certification is required, certification decisions are made independently by the relevant certification body.

Questions We Are Asked

Does S360 certify my organisation?

No. S360 is not a certification body. We help you prepare; certification decisions rest with independent certification bodies.

Can we use the digital platform on its own?

Yes. Modules may be used independently, inside an implementation engagement, or connected to the systems you already run.

Do you work with what we already have?

Yes. We start from your current procedures, records and systems, and keep what already works.

What Changes When the Record Is Digital

TODAY	WITH S360
Lots identified by memory and chalk marks	Each lot numbered and traceable to its source papers
Documents hunted down when a customer asks	Documents attached to the lot as they arrive
The same questionnaire filled in for every buyer	One verified profile, shared on request

Traceability

Source-to-market mapping, with volumes that reconcile.

Document Management

Structured evidence and document lifecycle, retrievable by supplier, delivery or date.

Supplier & Vendor Management

Registration, KYC, documentation, qualification and approval — the journey from supplier to registered vendor.

Services are scoped around each organisation's requirements. Digital modules may be offered independently, as part of implementation engagements, or as integrated solutions.

How We Work With You

01
Scope
Understand your supply base, customers and the requirements you face.

02
Assess
Review current practice, records and risk against those requirements.

03
Design
Agree one way of working: procedures, records and responsibilities.

04
Implement
Put it in place with your teams and suppliers, with training on site.

05
Digitise
Move records, evidence and workflows into the platform where it helps.

06
Monitor
Keep status current, close actions and prepare for each review.

Also in Forestry & Wood Products

- Farm Forestry and Plantation Groups
- Plywood, Veneer and Panel Manufacturers
- Pulp, Paper and Board Mills
- Furniture, Handicraft, Printing and Packaging

A supplier your certified customers can approve and keep.

Tell us about your supply base and the requirements you are facing. We will scope the work around them.
