S360.earth

Seafood Processing Plants and Exporters

Trace each carton to its farms, keep supplier farm status current, and answer buyer audits from records you already hold.

Advisory · Implementation · Digital

Who This Is For

- Shrimp processing plants
- Seafood exporters
- Pre-processing and peeling units
- Cold storage and repacking units

Where You Sit in the Supply Chain

PRODUCER → AGGREGATOR → **PROCESSOR** (You) → MANUFACTURER → **EXPORTER** (You) → BUYER

You gather harvests from many farms and middlemen into one shipment.

How S360 Works

Know the source › Build the evidence › Understand the risk › Take action › Be able to show it

What We Often Hear

- Raw material arrives from many farms, often through middlemen.
- Farm certificate status changes and can be noticed late.
- Farm-to-carton traceability is needed fast, during buyer audits or market checks.
- Buyer questionnaires repeat the same questions in new formats.

What S360 Does

The same integrated capability, scoped around what your customers, markets and requirements ask of you.

Advisory

Understand

- Supplier farm risk review
- Traceability approach from farm to carton
- Buyer requirement mapping

Implementation

Put it in place

- Supplier farm approval and monitoring
- Traceability procedures and mock recalls
- Readiness for buyer and certification audits

Digital

Keep it running

- Farm supplier register with certificate status
- Harvest-to-lot traceability
- Buyer document packs per shipment

Requirements This Covers

BAP processing plant standard | ASC chain of custody | SHAPHARI | Buyer and market requirements

S360 is the system, not the requirement. Standards, regulations and buyer requirements are inputs; we build one way of working that answers them together. Contributes to SDG 14, Life Below Water.

S360 is not a certification body. We support organisations in understanding applicable standards, implementing management systems, preparing evidence, conducting internal assessments and preparing for independent certification audits. Where certification is required, certification decisions are made independently by the relevant certification body.

Questions We Are Asked

Does S360 certify my organisation?

No. S360 is not a certification body. We help you prepare; certification decisions rest with independent certification bodies.

Can we use the digital platform on its own?

Yes. Modules may be used independently, inside an implementation engagement, or connected to the systems you already run.

Do you work with what we already have?

Yes. We start from your current procedures, records and systems, and keep what already works.

What Changes When the Record Is Digital

TODAY	WITH S360
Farm list kept by the procurement team	Each supplier farm with status, documents and history
Trace exercises can take hours	A lot traced back to its farms from records already held
Questionnaires answered from scratch	Answers built from your current records

Supplier & Vendor Management

Registration, KYC, documentation, qualification and approval — the journey from supplier to registered vendor.

Certificate & Standards Management

Track third-party certificates, standards, scopes, validity, expiry, suppliers, sites and products.

Traceability

Source-to-market mapping, with volumes that reconcile.

Services are scoped around each organisation's requirements. Digital modules may be offered independently, as part of implementation engagements, or as integrated solutions.

How We Work With You

01
Scope
Understand your supply base, customers and the requirements you face.

02
Assess
Review current practice, records and risk against those requirements.

03
Design
Agree one way of working: procedures, records and responsibilities.

04
Implement
Put it in place with your teams and suppliers, with training on site.

05
Digitise
Move records, evidence and workflows into the platform where it helps.

06
Monitor
Keep status current, close actions and prepare for each review.

Also in Aquaculture & Seafood

- **Shrimp and Fish Farms and Farmer Groups**
- **Hatcheries and Feed Mills**

Shipments you can trace and stand behind, farm by farm.

Tell us about your supply base and the requirements you are facing. We will scope the work around them.
