Furniture, Handicraft, Printing and Packaging

Make every certified order easy to evidence, from purchase to invoice to label.

Advisory · Implementation · Digital

Who This Is For

- Furniture and handicraft exporters
- Printers and converters
- Packaging manufacturers
- Multisite and job-work operations

Where You Sit in the Supply Chain

PRODUCER → AGGREGATOR → PROCESSOR → **MANUFACTURER** (You) → **EXPORTER** (You) → BUYER

You sell to brands and importers. They judge you on the claim on your invoice and label.

How S360 Works

Know the source › Build the evidence › Understand the risk › Take action › Be able to show it

What We Often Hear

- Buyers ask for claims and supporting documents order by order.
- Claim errors on invoices and labels are often found at audit rather than before.
- Small teams handle chain of custody alongside production and shipping.
- Supplier certificates are often checked after purchase rather than before.

What S360 Does

The same integrated capability, scoped around what your customers, markets and requirements ask of you.

Advisory

Understand

- Which claims and product groups suit your orders
- Scope options for sites and job workers
- Buyer requirement review

Implementation

Put it in place

- Chain of custody system and training
- Label and trademark approval process
- Internal audits and certification readiness

Digital

Keep it running

- Order-wise claim and document packs
- Supplier certificate check before purchase
- Training records and procedure library

Requirements This Covers

FSC chain of custody · PEFC chain of custody · Scheme trademark and labelling rules · EUDR information for wood products · Buyer programmes

S360 is the system, not the requirement. Standards, regulations and buyer requirements are inputs; we build one way of working that answers them together. Contributes to SDG 15, Life on Land.

S360 is not a certification body. We support organisations in understanding applicable standards, implementing management systems, preparing evidence, conducting internal assessments and preparing for independent certification audits. Where certification is required, certification decisions are made independently by the relevant certification body.

Questions We Are Asked

Does S360 certify my organisation?

No. S360 is not a certification body. We help you prepare; certification decisions rest with independent certification bodies.

Can we use the digital platform on its own?

Yes. Modules may be used independently, inside an implementation engagement, or connected to the systems you already run.

Do you work with what we already have?

Yes. We start from your current procedures, records and systems, and keep what already works.

What Changes When the Record Is Digital

TODAY	WITH S360
Claims typed by hand on invoices	Claims carried from purchase record to invoice
Supplier certificates checked once a year	Certificate status checked before each purchase
Buyer document requests chased across emails	A ready document pack for each order

Certificate & Standards Management

Track third-party certificates, standards, scopes, validity, expiry, suppliers, sites and products.

Document Management

Structured evidence and document lifecycle, retrievable by supplier, delivery or date.

Traceability

Source-to-market mapping, with volumes that reconcile.

Services are scoped around each organisation's requirements. Digital modules may be offered independently, as part of implementation engagements, or as integrated solutions.

How We Work With You

01
Scope
Understand your supply base, customers and the requirements you face.

02
Assess
Review current practice, records and risk against those requirements.

03
Design
Agree one way of working: procedures, records and responsibilities.

04
Implement
Put it in place with your teams and suppliers, with training on site.

05
Digitise
Move records, evidence and workflows into the platform where it helps.

06
Monitor
Keep status current, close actions and prepare for each review.
